## CLUB MEETING PROGRAM

The July meeting will be an interesting one - with two different program topics. One will deal with protective devices for mobile radio equipment. This demonstration will be given by Steve Corwin, the designer of the device.

An ARRL film on "solid state principals" (26 minutes) will also be shown at the meeting. Bob Pentz, K4DMA, has programs lined up for club meetings for the remainder of the year.

Refreshments will be served at the July 6 meeting - Fr. C1, W4SMU, will host the meeting at his QTH.

## TRAILER BREAK-IN ?

Both alarms at the club trailer were tripped last month one evening. No one answered the phone in the trailer, nor was there any response on 146.58 or the local Ky. repeaters. Within minutes the POLICE were on the scene checking the premise. A club member met the police and verified that everything was secure.

IF YOU USE THE CLUB TRAILER, answer the phone when it rings. If there is no answer when the alarm is tripped, POLICE will be called.

Security and trailer access will be discussed at the July Meeting.
